DETAILED ACTION

Claims 1-10 are pending in the present application.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, drawn to a pharmaceutical composition comprising a plurality of bone marrow stromal cells (MSCs) comprising an adenovirus mediated human BMP-2 gene, and a pharmaceutically acceptable polymer, and a method of treating a bone or other tissue defect using the same pharmaceutical composition, classified in class 424, subclass 93.21.
- II. Claims 9-10, drawn to a BMP-2 protein at a site of bone or tissue defect produced by the method of the presently claimed invention, classified in class 530, subclasses 350, 395.

The inventions are distinct, each from the other because of the following reasons:

The inventions of Groups I and II are distinct each from the others because the pharmaceutical composition comprising MSCs transfected with a recombinant adenovirus expressing BMP-2 and a pharmaceutically acceptable polymer of Group I is chemically distinct from a BMP-2 protein at a site of bone or other tissue defect of Group II. While BMP-2 protein is composed of amino acid residues, the pharmaceutical composition is made up of recombinant living cells. Furthermore, the BMP-2 protein of Group II is not required for the method of Group I, and it can be produced by extracting from tissues or recombinantly produced in tissue cultures.

Because these inventions are distinct for the reasons set forth above and have acquired a separate status in the art because of their recognized divergent subject matter, separate search requirements, and undue burden for the examiner, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17 (h).
